PCBA CLE Technology Series

UNDERSTANDING THE LATEST IN ONLINE IDENTITY INFORMATION, PROTECTION AND MANAGEMENT

Program Description:

Identity intelligence is the new online economy. If you don’t know the value of your own social data, you’re missing out on an entire currency exchange. Who you are, who you know, where you have been, where you are likely to go, which options you receive and what prices you will pay are all being tracked, analyzed and sold online. By the time the laws regulating this business are defined and enforced, we will all be well into the game. This CLE will offer practical advice about how to start being private today.
